## **Rainwater Downspout Redirect Rebate Application**

Soquel Creek Water District (**SqCWD**) offers a rebate to customers that redirect rainwater runoff from their gutter downspouts to landscape features such as rain gardens, swales, dry wells, etc. Redirecting downspouts and runoff to permeable areas on-site can provide water for your plants, help encourage infiltration and groundwater recharge, prevent stormwater runoff and pollution, and help protect your foundation. The concept behind this rebate is to **“Slow it, spread it, sink it!”**

To qualify for the rebate, the downspouts must be diverted directly to the landscape feature so that there is no off-site runoff. Drainage systems that convey water off-site (e.g., French drains, etc.) do not qualify for the rebate. Additionally, the feature receiving the runoff must be designed to drain within 48 hours to reduce the risk of standing water and mosquito breeding. Please see our website at [www.soquelcreekwater.org](http://www.soquelcreekwater.org) for more information on redirecting rain gutter downspouts or call (831) 475-8500 for assistance.

**This rebate requires a pre-approval inspection and a post-installation inspection by SqCWD personnel. Please read all the Rebate Program Requirements on the backside of this Application. All rebate applications require the signature of the property owner (if different than the applicant).**
