For online purchases, a print out of the final invoice and an original packing or delivery slip is required.
2. All rebate applications must be signed by the legal property owner.
3. **Backflow protection is required on any graywater system that uses a pump to distribute the graywater. Graywater should not be stored.**

6. **A representative of Soquel Creek Water District (SqCWD) must be permitted to inspect the property to verify installation and proper construction of all systems not installed by a licensed contractor (self performed labor or non-licensed contractor install). Systems installed by licensed professionals require the contractor's signature below to bypass the requirement for post-inspection.**
7. The maximum graywater system rebate is \$1,400 per property for installation of both clothes washer system and dual plumbing system.
8. No rebate will exceed the purchase price of the material(s), contractor performed labor, permitting costs and any required backflow installation. Sales tax is not rebated.
9. The rebated equipment must be installed at an existing SqCWD service address and must be installed prior to rebate request. New development is not eligible for rebates.
10. Rebates are applied as a credit that will appear on a subsequent water bill (see exceptions below). The account must be in good standing to receive a credit. Upon closing an account, any rebate credit balance will be mailed to the account holder. Allow four weeks from the date of rebate approval for credit processing.

12. Installation of any rebated device, appliance or fixture is the sole responsibility of the applicant, as is determination of the adequacy and compatibility of the existing plumbing system.
13. The applicant is solely responsible for the proper disposal of all materials associated with the installation of rebated fixtures and equipment and the SqCWD assumes no responsibility or liability. Please recycle materials.
14. SqCWD does not endorse specific brands, products or dealers; nor does it guarantee materials or workmanship; acceptance of such is customer's responsibility.
15. SqCWD assumes no responsibility or liability for any damage that may occur to an applicant's property as a result of participation in this program. Due to circumstances beyond its control, SqCWD cannot guarantee that installation of rebated fixtures or measures will result in lower utility costs.
