New Water Service Process for

New Construction (not conversion) Accessory Dwelling Units

Application Phase (Pre-development permits)
1. Applicant meets with Conservation Staff and Engineering Staff (as needed).
2. Applicant submits “New Water Service Application Request” (application) form.
3. Applicant pays $300 Application (Will Serve) fee (non-refundable).
4. District processes request.
5. Applicant granted Conditional Will Serve Approval.
6. District sends Conditional Will Serve Letter to applicant via mail or email.
7. Applicant uses the Conditional Will Serve letter to get development permits from the county or city.

Development Phase (applicant has obtained permit or tentative map but has not begun building)
8. Applicant provides copy of building permit to District staff.
9. Applicants submits documents identified in Requirements Checklist for District review.
   a. Indoor Water Use Efficiency checklist;
10. District processes request.
11. Applicant granted Unconditional Will Serve Approval (Board of Director’s approval required for all commercial projects and large residential projects).
12. District sends Unconditional Will Serve Letter to applicant by mail or email.

Building Phase (See ‘New Applicant Installed Service Brochure’)
13. Turn in required forms to engineering:
   a. Water Waiver (If required)
   b. Fire Protections Requirements Form
   c. Backflow Prevention checklist
   d. Customer Billing Information Form
   e. Restricted Meter Policy (for 5/8” restricted meters)
14. Engineering Staff prepares Service Installation Agreement detailing fees and guarantee form for contractor insurance requirements
15. Applicant pays remaining fees, turns in signed agreement (signed by owner) and guarantee form (signed by contractor) Remaining fees include:
   a. Water capacity fee
   b. Meter Cost
   c. Inspection Deposit
16. Applicant’s contractor installs water service per District guidelines with oversight from District’s construction inspector.
17. After passing final inspection, contractor submits As Built and Maintenance Bond.
18. District installs meter and service begins.
19. District closes out project. If there are remaining funds from the engineering deposit this is refunded to the owner. If the funds were exceeded, the owner is invoiced for the overage.
