ORDINANCE NO. 14-01
(Rescinding Ordinance No. 10-03)

AN ORDINANCE OF SOQUEL CREEK WATER DISTRICT
PROHIBITING CERTAIN USES OF WATER AND ESTABLISHING A POLICY TO
MINIMIZE WATER WASTE

THIS ORDINANCE is adopted in light of the following facts and
circumstances, which are hereby found and declared by the Soquel Creek Water
District (“the District”) Board of Directors:

WHEREAS, Article X, Section 2 of the California Constitution and Section
100 of the California Water Code declare that the general welfare requires water
resources be put to beneficial use, therefore, waste or unreasonable use or
unreasonable method of use of water be prevented, and conservation of water be
fully exercised with a view to the reasonable and beneficial use thereof.

WHEREAS, the adoption and enforcement of this Ordinance is necessary to
help manage the Soquel Creek Water District’s potable water supply and to avoid or
minimize the effects of groundwater overdraft, seawater intrusion, and drought
within the District.

WHEREAS, the District has the power to perform all acts necessary to fully
carry out the provisions of this Ordinance consistent with Section 375 and Sections
31001-31029 of the California Water Code.

WHEREAS, as changes are deemed prudent, this Ordinance may be revised
or modified by Resolution.

WHEREAS, Ordinance No. 14-01 rescinds and replaces Soquel Creek Water
District Ordinance No. 10-03, Prohibiting Certain Uses of Water and Establishing a
Water Conservation Policy.

NOW, THEREFORE, THE BOARD OF DIRECTORS OF THE SOQUEL
CREEK WATER DISTRICT DOES ORDAIN AS FOLLOWS:

I. Title

THIS ORDINANCE shall be known as the Soquel Creek Water District
Water Waste Prohibition Ordinance.
II. Applicability

The provisions of this Ordinance shall apply to all persons, corporations, public or private entities, governmental agencies or institutions, or any other users of water within the District’s system.

III. Prohibited Uses

The following uses of water are prohibited and are in effect year round:

A. General Waste: Indiscriminate running of water or washing with water which is wasteful and without reasonable purpose.

B. Washing of Exterior Surfaces: The washing of hard or paved surfaces, including but not limited to sidewalks, walkways, driveways, parking areas, tennis courts, patios or alleys, except when necessary to alleviate safety or sanitary hazards or when a broom or other waterless device will not suffice. If necessary, washing may only be done with a bucket or similar container, a hose equipped with a positive shut-off nozzle, a pressure washer, a low-volume, high-pressure water efficient water broom, or a cleaning machine equipped to recycle the water used.

C. Cleaning of Structures and Vehicles: The washing of building exteriors, mobile homes, cars, boats or recreational vehicles without the use of a positive shut-off nozzle on the hose or a pressure washer.

D. Watering/Irrigation: The watering of grass, lawn, groundcover, shrubbery, open ground, crops and trees, including agricultural irrigation, in a manner or to an extent which allows water to run off the area being watered. Every water user is deemed to have under their control, at all times, their water distribution lines and facilities, and to know the manner and extent of their water use and run off.

E. Watering/Irrigation Hours: The use of overhead spray irrigation between the hours of 10:00 a.m. and 8:00 p.m. (Exceptions may be made by the District General Manager for professional gardeners where it can be shown that it is not possible to meet this provision).

F. Watering During Rainfall: The watering of grass, lawn, groundcover, shrubbery, open ground, crops and trees, including agricultural irrigation at any time while it is raining.

G. Drought Restrictions: Watering during a publicly declared curtailment period in a manner that is not compliant with drought restrictions.

H. Plumbing Leaks: The escape of water through leaks, breaks, or malfunctions within the water user’s plumbing or distribution system, for any substantial period of time within which such break or leak should reasonably have been discovered and corrected. It is presumed that a period of seventy-two (72) hours after the customer discovers such a break or leak or receives notice from the District, is a reasonable time within which to correct such break or leak or, at a minimum, to stop the flow of water from such break or leak. Based on the estimated severity of the
leak, District staff reserves the right to shut-off water until the leak has been corrected.

I. **Fountains and Commercial Car Washes:** The operation of any ornamental fountain or automated carwash using water from the District’s domestic water system unless water for such use is re-circulated.

J. **Cooling:** The use of water in mechanical equipment purchased and installed after the adoption of Ordinance 10-03 that utilizes a single pass cooling system. Water used for all cooling purposes shall be re-circulated.

K. **Drinking Water Served Upon Request Only:** Eating or drinking establishments, including but not limited to restaurants, hotels, cafes, cafeterias, bars, clubs or other public places where food or drinks are sold or served, are prohibited from providing drinking water to customers unless expressly requested. Affected establishments must prominently display notice informing their customers of this requirement using clear and easily understood language.

L. **Providing Option to Not Launder Linen and Towels Daily:** Hotels, motels, vacation rentals and other commercial lodging establishments must provide customers the option of not having towels and linen laundered daily. Commercial lodging establishments must prominently display notice of this option in each bathroom using clear and easily understood language.

IV. **Exempt Water Uses**

All water use associated with the operation and maintenance of fire suppression equipment or employed by the District for water quality flushing and sanitation purposes shall be exempt from the provisions of this Ordinance. Use of water supplied by a reclaimed wastewater, gray water or rainwater collection system is also exempt; however, use of water from these systems is not exempt from applicable County of Santa Cruz and/or City of Capitola regulations.

V. **Consequence of Violation**

Complaints of water waste will be investigated. Failure to comply with this Ordinance will result in the following violation notices issued by mail, hand-delivery, or posting at the entrance of the violator’s premises:

A. **First Violation:** The District may issue a written notice which shall state the time, place, and general description of the violation, as well as a time frame in which the violation must be corrected. District staff may use discretion when determining the correction time, which may range from immediate correction for violations such as allowing irrigation runoff, watering outside of the allowable irrigation times, etc., to up to 72 hours for correcting plumbing leaks.
B. **Second Violation:** If the first violation is not corrected within the time frame specified by staff, a second notice will be issued. If the second violation is not corrected within 48 hours, the District may impose any or all of the following penalties:

1. Water service may be disconnected or flow may be restricted. Where water service is disconnected or restricted, it shall be reconnected or unrestricted upon correction of the violation and the payment of the reestablishment of service charge per the District’s Schedule of Rates & Charges in effect at the time.

2. A fine of not more than $600 or imprisonment in the county jail for not more than 30 days, or both the fine and imprisonment, may be imposed upon conviction under Section 31029 of the California Water Code, or fines/penalties as defined and allowable under Section 53069.4 of the Government Code may be imposed. Non payment of fines will be subject to the same remedies as non payment of basic water rates.

Additionally, any repeat violations of the same type and location within a year (12 months) of the first or second violation will be considered cumulative violations.

VI. **Variances**

A. The Board of Directors may grant variances for uses of water otherwise prohibited if failure to do so would result in an emergency condition affecting the health, sanitation or fire protection of the customer, an undue and severe hardship on a particular business, or render the continued operation of such a business economically infeasible.

B. The decisions of the District may be appealed to the Board of Directors by submitting a written appeal to the District within fifteen (15) calendar days of the date of the decision. Upon granting any appeal, the Board of Directors may impose any conditions it determines to be just and proper.

VII. **Severability**

If any section, subsection, provision or part of this Ordinance, or its application to any person or circumstance, is held to be unconstitutional or otherwise invalid, the remainder of this Ordinance, and the application of such provision to other persons or circumstances, shall not be affected thereby and shall remain in full force and effect and, to that end, the provisions of this Ordinance are severable.

VIII. **Effective Date**

This Ordinance shall become effective on June 18, 2014.
PASSED AND ADOPTED at a regular meeting of the Board of Directors of the Soquel Creek Water District held on June 17, 2014 by the following vote:

AYES: Directors LaHue, Daniels, Jaffe, Hoernschemeyer, Meyer
NOES: None
ABSENT: None
ABSTAIN: None
